📍 Patel colony, Jamnagar, Gujrat

ABOUT ME

Aspiring Data Science and AI enthusiast with a background in computer engineering. Experienced in python, power BI, and working with structured data. Continuously exploring machine learning and modern AI tools. Focused on building impactful, data-driven solutions. Eager to apply analytical thinking to real-world data challenges.

EDUCATION

Government Polytechnic Jamnagar | 2024-2027

Diploma In Computer Engineering

Diploma student in computer engineering with strong foundations in programming, databases, and computer systems. Developed growing expertise in data analysis, machine learning, and AI tools through academic and self-driven learning.

CGPA: 9.75

SKILLS

- Front-end
- python
- PHP (Medium level)
- Back-end
- java (OOP)
- Cloud Computing (Fundamentals)

Data & Analytics: Data Visualization, Data Cleaning & Handling, Preprocessing, EDA, DA.
Tools & Libraries: Python (pandas, numpy, seaborn), Power BI, SQL (data querying, filtering, joins)

Database Management: SQL (Oracle Database), Relational Database Management System (RDBMS)
NoSQL Databases: MongoDB, Cassandra, Neo4j, Redis

Computer Science Fundamentals: Data Structures (Basic to Intermediate), Operating System (Fundamentals), Computer Networks (IPv4, IPv6, Network Models), Software Engineering Basics.

Emerging Technologies: Introduction to Machine Learning (Basic to Medium).
Generative AI (Basics, tools exposure).

Note: I have developed projects applying these skills; please visit my portfolio for details.

ADDITIONAL LEARNING

AI Learning Community Engagement | Jan 2025 - Present

Key Activities: 1) Curate and share daily AI news updates, 2) Explore and review “AI Tool of the Day”, 3) Analyze real-world applications of AI tools, 4) Stay updated with emerging trends in AI.

Skill: Different problem solving using different different AI tools.
